# Attribute Mapping

## What is Attribute Mapping?

Attribute Mapping is the process of mapping the shopify attribute like color, size or style with the walmart attribute. Attribute mapping is mandatory in case of variation products but sometimes attribute mapping is also required for simple products also, when you had products for specific size or color.

Attribute mapping can be done in two ways, either mapping the attributes of all the product at one time or mapping the attribute of individual product by editing them.

## How to do Attribute Mapping?

### Attribute Mapping in bulk

- Go to **Products**.
- Then, **Attribute Mapping**.

[Click here](#) to do the attribute mapping of all the products.

**Attribute Mapping** Save

• It is the process of mapping the Shopify attribute like color, size or style with the Walmart attribute.  
• Attribute mapping is mandatory in case of variation products but sometimes attribute mapping is also required for simple products also when you had products for specific size or color.

PRODUCT TYPE(SHOPIFY)	WALMART-SHOPIFY ATTRIBUTES	
	WALMART	SHOPIFY
	hasPricePerUnit <b>Required</b>	<input type="text" value="No"/> Select Value of <b>hasPricePerUnit</b> attribute which will be used for all products under Beer Glass Product type. <input type="checkbox"/> Title Select the appropriate shopify options for <b>color</b> attribute from the above list of shopify options.

## Attribute Mapping for individual products

- Go to **Products**.
- Then, **Manage Products**
- Click on **Edit** of the product.

[Click here](#) to do the attribute mapping of individual products.

The screenshot shows the 'Manage Products' page. On the left is a sidebar with navigation options: Home, Product, Manage Product (with sub-options: Category Mapping, Attribute Mapping, Product Taxcode, Product Feed, Repricing, Lag Time, Promotional Price, Share Product), Order, Import Export, Promotion, Help, Referrals, and Setting. The main content area has a 'Manage Products' header with 'Sync with Shopify' and 'Update Status' buttons. A yellow note says: 'NOTE : Don't see all of your products? Just click here to map all Shopify Product Type(s) with Walmart Category.' Below is a search bar and a table showing 1-25 of 3,961 items. The table has columns: Filter, Search product id, sku, vendor, product type, tags, Search, Showing 1-25 of 3,961 items, 25 per page, 1 of 159. The table rows include: 1. Unpublished product, 0 in stock, 99.99, Crafts, UNPUBLISHED : 1, with a red box around the edit icon. 2. Published product, 999 in stock, 16.35, Flasks, PUBLISHED : 1, with edit and view icons. 3. Item processing product, 999 in stock, 14.99, Knife, ITEM PROCESSING : 1, with edit and view icons.

- Edit of the product will be opened.
- Scroll down to Map Walmart Attributes.

The screenshot shows the 'Walmart Attributes' mapping page. On the left is the same sidebar as the previous screenshot. The main content area has a 'WALMART ATTRIBUTES' header. Below is a table with columns: ENABLE, SKU, PRICE, INVENTORY, BARCODE, and MAP WALMART ATTRIBUTES. The 'MAP WALMART ATTRIBUTES' column is highlighted with a red box, showing a dropdown menu with 'Shopify Option Color' and 'Walmart attribute(s) flavor'. The table rows include: 1. Published product, 14.99, 999, 7904, Red. 2. Not uploaded product, 14.99, 999, Black.

- Select the correct attribute.
- Click the **SAVE** button.

You will get a success message as Attribute mapping is done successfully.

**Hope you find the content helpful.**

**Thanks**
