# Shipping Exception on Walmart

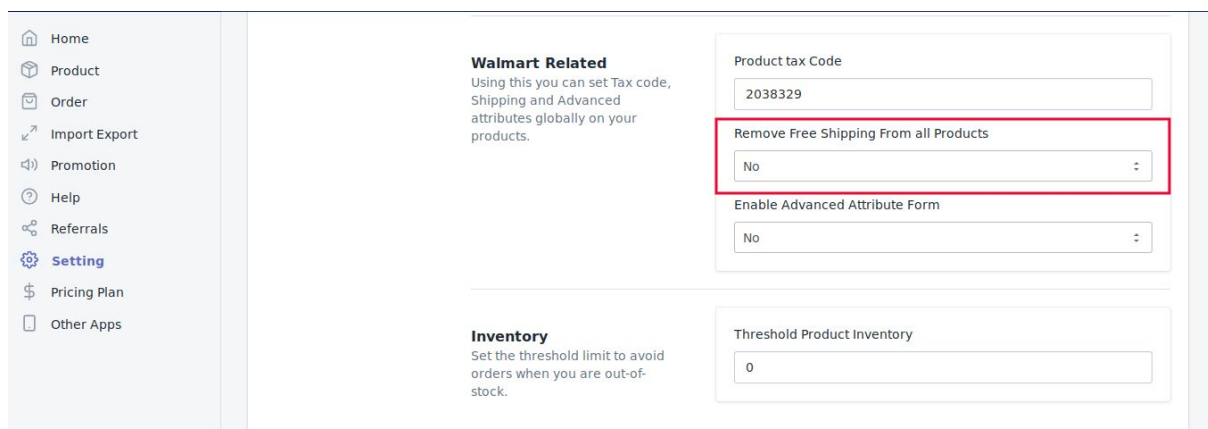

Shipping exception is the functionality to add the shipping charges to individual product according to the specification that where the product is to be delivered and which shipping method will be used.

First of all you need to remove the free shipping from all products. To remove free shipping from your products you have to:

- Go to **“SETTINGS”**
- Then to **Product Management**
- Scroll down to the **Walmart Related**
- You will find **“Remove Free Shipping From all Products”** set it as **YES**.

After this, you need to upload all products to Walmart to send removed free shipping to Walmart. By doing this free shipping will be removed from your products.

To remove free shipping from products [click here](#)

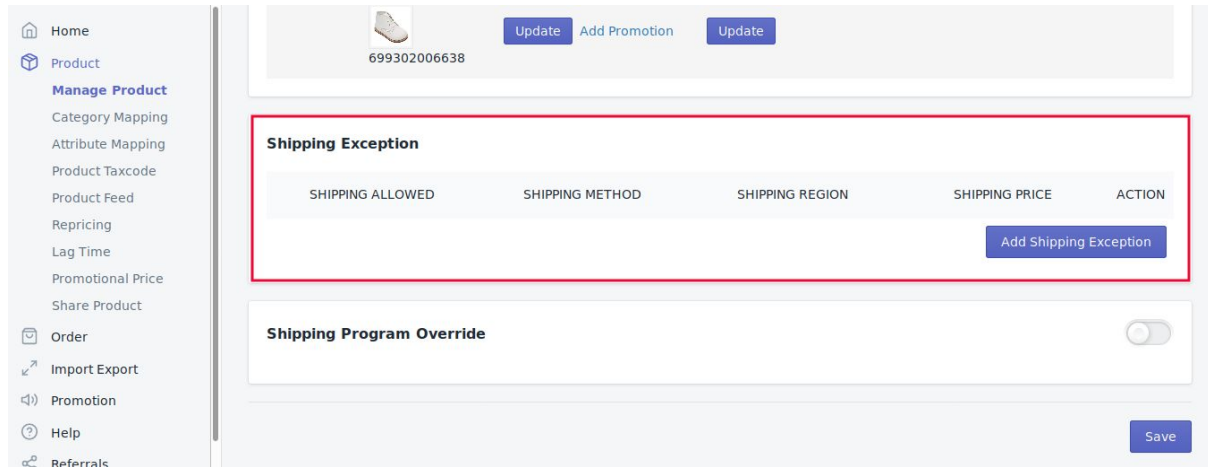

The screenshot shows the 'Walmart Related' settings page. The left sidebar contains navigation options: Home, Product, Order, Import Export, Promotion, Help, Referrals, Setting (highlighted), Pricing Plan, and Other Apps. The main content area is divided into sections: 'Walmart Related' (with a description: 'Using this you can set Tax code, Shipping and Advanced attributes globally on your products.'), 'Inventory' (with a description: 'Set the threshold limit to avoid orders when you are out-of-stock.'), and a form area. The form area includes: 'Product tax Code' (2038329), 'Remove Free Shipping From all Products' (No, highlighted with a red box), 'Enable Advanced Attribute Form' (No), and 'Threshold Product Inventory' (0).

You can set Shipping Exception by 2 ways

1. Editing each product in Manage Products section
2. Using CSV from Import/Export section

## Editing each product in Manage Products section

You can set Shipping Exception to individual products by going to **Product => Manage Product => Edit => Shipping Exception.**

### Proceed to follow the below steps-

1. Choose **Allowed Shipping** and click on **YES**.
2. Choose which type of shipping method you want to provide. There are 6 ways of providing shipping-
  - STANDARD-** 2-5 business days in all over region.
  - VALUE-** 3-7 business days in '48 State - Street' only.
  - EXPEDITED-** 1-2 business days in all over region
  - ONEDAY-** 0-1 business days in all over region
  - FREIGHT -** 5-10 business days for all regions
  - FREIGHT\_WITH\_WHITE\_GLOVE**
3. Select for which region you want to provide that shipping method. You can provide shipping method for 5 regions-
  - STREET\_48\_STATES**
  - PO\_BOX\_48\_STATES**
  - STREET\_AK\_AND\_HI**
  - PO\_BOX\_AK\_AND\_HI**
  - STREET\_US\_PROTECTORATES**
4. Put the shipping price that you want to charge.

5. Click on Add Shipping Exception and your shipping exception will be added.

**Shipping Exception**

| SHIPPING ALLOWED | SHIPPING METHOD | SHIPPING REGION  | SHIPPING PRICE | ACTION                                                                              |
|------------------|-----------------|------------------|----------------|-------------------------------------------------------------------------------------|
| No               | VALUE           | STREET_48_STATES |                |  |

You can also delete this exception by clicking on DELETE button.

### Using CSV from Import/Export section

To update the Shipping Exception on your products using the CSV follow the below steps:

- Go to Import/Export
- Then to the **Shipping Exceptions**
- **Export Shipping Exception file**
- Make the necessary changes
- Import back the file to the app.

**NOTE:** Both the process will help you update the Shipping Exception to the your products in the app, to send the updates on Walmart

**Hope you find the content helpful.**

**Thanks**
