

Attribute Mapping

What is Attribute Mapping?

Attribute Mapping is the process of mapping the shopify attribute like color or size with the Fruugo attribute. Attribute mapping is mandatory in case of variation products.

Steps of Attribute mapping:-

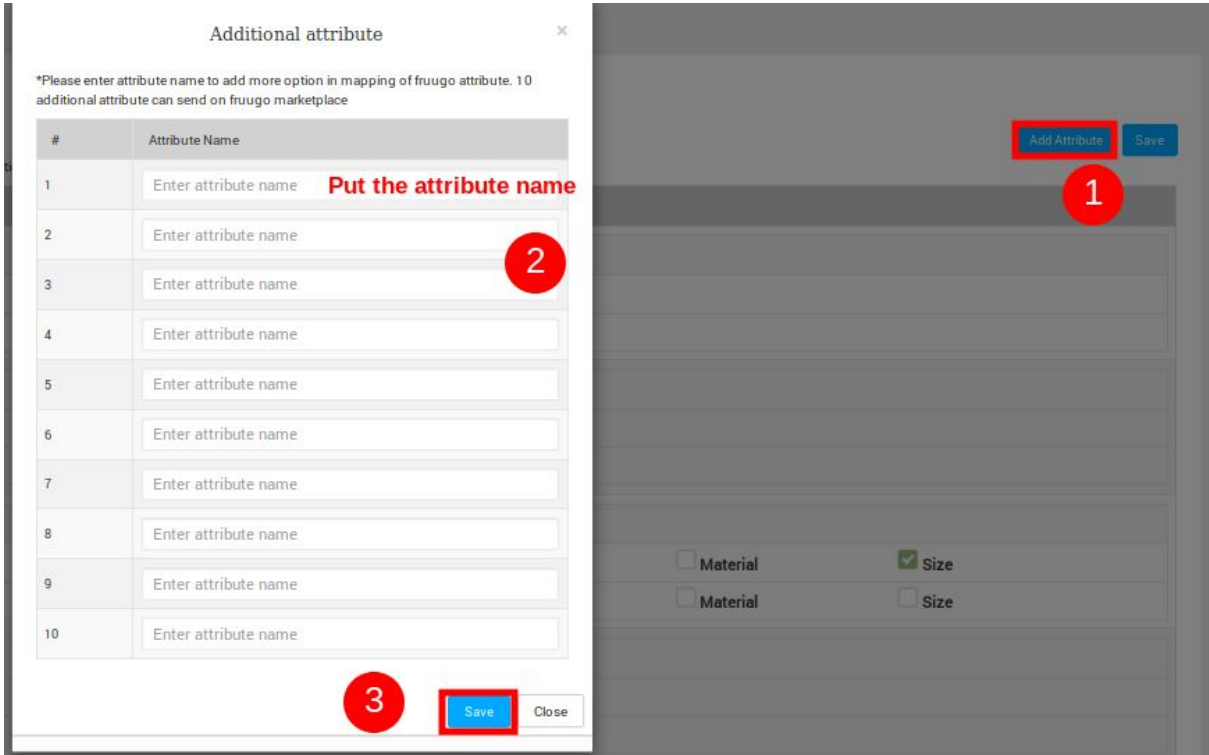

- 1.) Click on the Product section.
- 2.) Click on the “Map Attributes”.
- 3.) Map your Shopify with fruugo attributes.

Note:- Fruugo.com accepts only two types of variations “Size & Color”. If you want to send extra attribute then you have discuss with them, then from the app you can send the extra attributes also.

Here are the steps add Add Extra Attributes:-

- 1.) On the same page of “Map Attributes”
- 2.) Click on the “Add Attribute” button.
- 3.) Add the attributes which you want as Extra attributes.
- 4.) Click on “Save” button.

Hope you find the content helpful.

Thanks!!
